

## Map Your Journey

### Part 1 Reflect on your journey

Brainstorm significant school/life events up to now. You can include funny, scary, proud, sad, exciting, etc moments—think about what stands out for you!

Once you have a good selection, narrow it down to 8-10 events (you could just circle or highlight above).

### Part 2 Draw your map!

You could draw your map on paper or in a digital program.

The map will be a metaphor for your journey. How will you represent the easy and difficult parts along the path or road? Some ideas might be:

- Curving/winding
- Bumpy/ rough patches
- Smooth blacktop
- Uphill or downhill

Illustrate events with symbols and captions.
