

## Grade K - Literacy – Lesson 4 – Make A Story

Curriculum: Literacy (Expressive)

Learning Goals:

- Understand that we can tell stories about what we know or what we imagine
- Story has a beginning, middle, end
- Story can be told orally or written or shown

Equipment:

Collect a variety of toys, blocks, lego, small fabric scraps, craft materials or whatever you have around the house.

Activity:

Using your supplies, build a scene to tell a story. It might include what you know about apples and a trip.

Use your imagination to build.

When you've completed, tell your story. At each part of the story, you might need to move some of story parts you built.

Extension:

Use a device to record your story (phone or ipad tablet). Are you happy with the results? Can you make it better? Fix some of the parts you would like to make it better. Record again.

Show it to your family.
