

## Science Gr1 Lesson 2 - Will a Coconut Float or Sink?

Curriculum: Science

Learning Goals:

- Scientists asks questions
- Scientists form hypothesis
- Scientists test the hypothesis
- Scientists record observations
- Scientists come to conclusions

Materials:

- Coconut
- Bucket or tub of water (3/4 of way to the top of the container)

Activity:

Question – Would a coconut sink or float in water?

Record your answers on the worksheet.

Place the bucket with water. Do not fill to the brim but enough water that the coconut can be submerged.

Carefully place the coconut in the water.

Observe what happens.

Were you surprised?

Science Experiment

Question: Would a coconut sink or float?

My Hypothesis:

Draw the experiment

I think it will

---

sink

float

Conclusion:

---

---
