

# Explorations: Rosie Revere, Engineer (Grade 2)

<b>Curriculum:</b>  Science/ADST	<b>Learning Goals:</b> -Planning and Conducting, Processing and Analyzing Information, Evaluating, Applying and Innovating, Communicating -Ideating, Making, Sharing
--	--

## Materials

Rosie Revere, Engineer book or access to a website for read aloud story  
A variety of materials in the recycled bin  
Scissors  
Glue/tape  
Markers/pencil  
paper

## Activities

**Read** the book Rosie Revere, Engineer by Andrea Beatty if you have it at home

OR

visit Awnies House for a Read Aloud session of the story

<https://www.youtube.com/watch?v=f41od1y5MN4>

### **Connecting Conversations with your parent:**

Discuss the various inventions that Rosie created from items she located in the trash.

What items did she use? What did the invention do? Which invention was your favorite?

### **Activity:**

Rosie engineered a 'heli-o-cheese-copter' for her aunty. Create an invention that will help someone in your family from found items in the trash. Brainstorm your ideas on a blank piece of paper before you begin.

Create a unique feature on your invention (ex. spins, lever)

### **Communicate:**

Share your invention with your parent. Explain what you like best about your invention and how it works.

### **Extension:**

-write a story about how your invention will help your family member

-draw a diagram with labeled parts about how your invention works
