- -A combination of aerobic and strengthening activities will improve your health and well-being!
- -You are going to create a dice with aerobic or strengthening activities on each side.
- -Use the attached template or create your own template
- -Pick three moderate or vigorous aerobic activities and three strengthening activities to write/draw on your dice. Pick from the examples below or pick your own activities.
 - **Moderate and vigorous aerobic activities** strengthen your heart and lungs (e.g. dancing, jump rope, tuck jumps, jumping jacks, jog on the spot)
 - **Strengthening activities** strengthen your muscles (e.g. push-ups, sit ups, lunges, squats, plank)
- -Cut out and assemble cube.
- -Roll your workout dice. Do the workout it lands on. Do 5-15 repetitions for strengthening activities. Do 20-30 repetitions for the aerobic activities.

Extension:

It is essential to our well-being to have enough physical activity, sleep, and down time each day. Visit the <u>Build Your Best Day</u> website to create a schedule for your dream day!
