

## Numeracy Gr 3 Dec 7

### Activity 1: Regrouping Using Base 10 Blocks

Materials Needed:

- base 10 blocks, or print from below, or use these [virtual manipulatives](#).

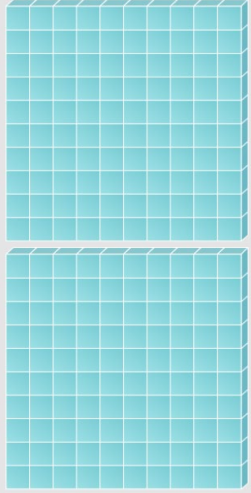

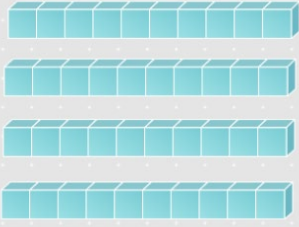

Task Instructions:

Have your child use the base 10 blocks (either real ones if you have them, or cut out from the templates below—make 2-3 copies of each sheet on cardstock, or use the on-line base 10 blocks linked above).

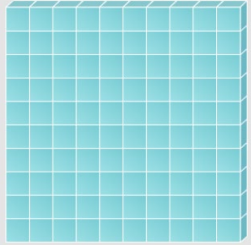

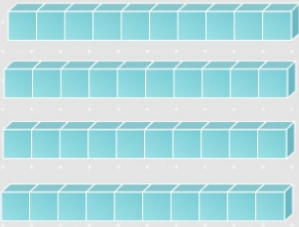

- Model subtraction and regrouping using the base 10 blocks:

Example:  $246 - 167$

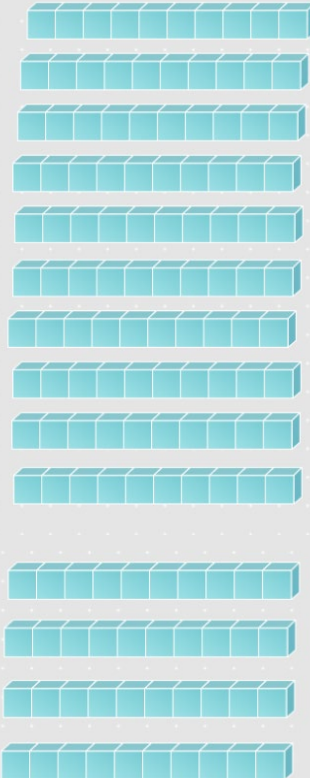

Make 246

Hundreds	Tens	Ones
		

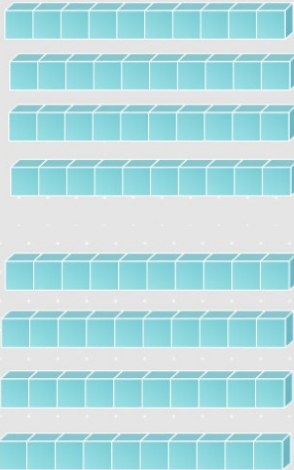

Subtract 100

Hundreds	Tens	Ones
		

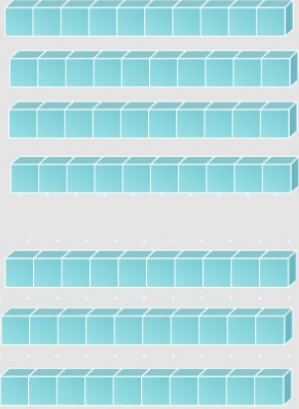

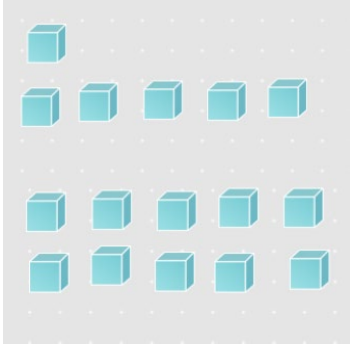

Next, we need to subtract the 6 tens, but there are only 4 tens. So we must take the hundred, and break it into 10 tens to place in the tens column.

Hundreds	Tens	Ones
		

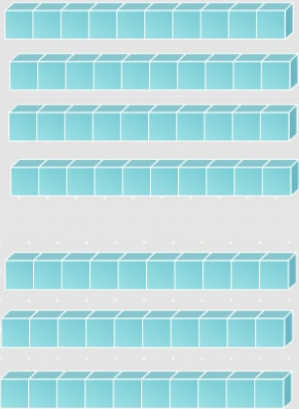

Take away 6 tens now.

Hundreds	Tens	Ones
		

Now we need to take away 7 ones. However, there are only 6 ones, so we must take one of the tens and break it into 10 ones to place in the ones column.

Hundreds	Tens	Ones
		

Now subtract 7 ones to find the answer:

Hundreds	Tens	Ones
		

The answer is: 79

Try the following questions, using the chart and the base 10 blocks:

$246 - 132 =$

$722 - 488 =$

$578 - 223 =$

$231 - 174 =$

$625 - 314 =$

$677 - 389 =$

$795 - 540 =$

$916 - 56 =$

Parent Tips: Use dice to generate more numbers to practice subtraction. Take a look here: [youtube.com/watch?v=vyxPCV8hnHs](https://www.youtube.com/watch?v=vyxPCV8hnHs)

USE THIS CHART WITH THE BASE 10 BLOCKS BELOW

<b>Hundreds</b>	<b>Tens</b>	<b>Ones</b>
