

**Lesson Focus:** What is another type of map we can create?

**Materials:**

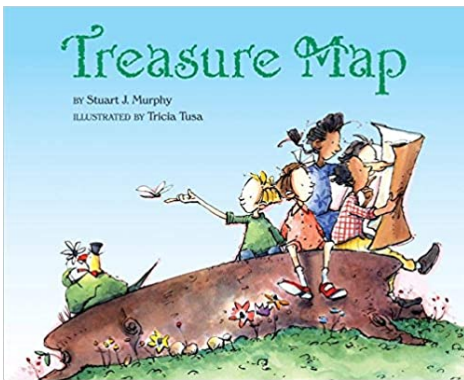

- Paper and pencil or notebook, crayons
- Internet and computer or computer device

**Invitation to Learn:**

In this lesson you will learn that a treasure map is one option for a map. It uses directions to locate objects.

**Watch this video.**

**Treasure Map. By Stuart J. Murphy**

**Ask:**

What were some interesting details in this story?

Do you think this story is real? Why do you think so or not?

What treasure do you think is interesting to place in the hole? Why?

**Notebook Time:**

You are going to create a treasure map.

Before you do, think of a treasure or treasures that you might hide in your home or in an imaginary place.

- Create a map so someone else can find the treasure. You can use any piece of paper you wish.
- Include real or add imaginary objects or places on your map. Let your imagination go wild.
- Give your map some colour.
- Make sure you keep this map for next week.
