

Lesson Focus: What can the land tell us?

Materials:

- Internet access for videos

Invitation to Learn:

This lesson is part of a larger unit that focuses on natural and human-built characteristics of the local physical environment.

Watch this video.

Natural and Built Environments.

Ask:

- Look outside your window. What do you see?
- Go to another room and look outside that window. What do you see?

Answer: you might see trees, grass, houses, tall buildings, street, road, cars, birds, squirrel

- Can you figure out what is natural and what is human-built?
 - Natural: created by nature; Human-built: created by people

Grade Kindergarten Social Studies: February 8 – February 12 2021

Notebook Time:

Look at the things that you saw outside your window.

Create 2 columns and fill in all the things that you noticed. You may have to look a few times.

Natural	Human-Built
