Lesson 2: Creative Thinking Competency Reflection

In this unit, you have been building your "Creative Thinking Competency" skills.

- I can get new ideas or build on other people's ideas, to create new things within the constraints of a form, a problem, or materials
- I can develop a body of creative work over time in an area I'm interested in or passionate about
- I deliberately learn a lot about something so that I am able to generate new ideas or ideas just pop into my head
- I can usually make my ideas work within the constraints of a given form, problem, and materials if I keep playing with them
- I build the skills I need to make my ideas work, and usually succeed, even if it takes a few tries

In a paragraph, reflect on your skills in these areas. How difficult or easy was it to come up with ideas? Was it helpful to see the ideas of others and learn about various poetry forms first? What inspired you? How successful do you feel you were at making your ideas work?
