

## Grade 1 Social Studies: March 8 – March 12 2021

---

**Lesson Focus:** Different seasons affect the way people live.

### **Materials:**

- Internet access to watch the video
- Notebook or piece of paper, crayons

### **Invitation to Learn:**

Last week we learned about the four (4) seasons. We are fortunate to live in an area that has 4 seasons. There are some areas of the world that only have one season. Can you guess where that might be? (Think of a place that is hot all year round or cold all year round.) The seasons affect the homes we live in and the clothes we wear.

**Watch these videos. Two are from last week.**

### Ask:

- If you lived in Burnaby in the winter, what would you need to keep warm? (Think about both your house and your clothes.)
- If you lived in the Yukon in the winter, what would your home look like? How might you travel? What would you wear?
- What land differences do you see between B.C. and the Yukon?

### Notebook Time:

In your notebook or on a piece of paper, draw a home that you would like to live in the winter? It can be imagined or real.

### Include:

- All the things you would need to be comfortable in winter
- Label the items that you put into your home
- Be sure to add yourself and your family in the picture. Don't forget to add any pets that you may wish. (Do they have a home?)
- Colour your picture

On another piece of paper, draw a winter home in the Yukon if you were to live there.

- All the things you would need to be comfortable in winter
- Label the items that you put into your home
- Be sure to add yourself and your family in the picture. Don't forget to add any pets that you may wish. (Do they have a home?)
- Colour your picture

### Extension:

Where would you rather live? Tell why either in a video or write it below the pictures you just completed.
